GIBSON REDUCED TO ASHES!!

From a gentleman direct from the State, that that village has been visited by a destructive fire that has ever been in the State. It commenced at 10 o'clock Saturday morning, in a kitchen of the Post Office, and continued until 4 o'clock in the evening, destroying every thing in its course.—The house, the Bank of Port Gibson, the house, the Washington Hotel, and the Main street, with one exception, were reduced to ashes. The papers, the Post Office, together with the books, &c. of the Bank were the loss of property is immense—estimated at from \$500,000 to one million. The contents of the stores destroyed after they were taken from the street—were piled up in the street and progressed they too were destroyed. There were but two engines in the village of which we learn was burnt, and for some time in use in a space between some houses when spread so rapidly that the firemen were unable to contain it. This once village we are told, presents a scene of desolation which beggars description. Most sincerely do we sympathize with the sufferers of this ill fated village, and we hope that the hour of their adversity, may be the hour of their deliverance. Many of the citizens who were in easy circumstances, are now, in a few hours made homeless, penniless. Cannot something be done to relieve their fellow citizens who are suffering under so appalling a calamity? We know the efforts that are pressing upon our minds, and we believe a little can be done to relieve a generous and liberal community are suffering under so appalling a calamity.—Vicksburg Whig.

Correspondence of the Republican Banner.
NEW YORK, MAY 27, 1839.

On the 20th inst. the United States frigate Constitution, having on board Mr. Ellis, our minister to Mexico, sailed for Vera Cruz. As many American merchants have large claims upon that government, for wrongs committed upon them; and as apprehensions have heretofore been entertained, lest these claims should ultimately lead to a collision, I have supposed that every citizen would feel some interest in knowing the present aspect of our affairs, with that country, and the immediate object of Mr. Ellis' visit. That information I will briefly give you.

It will be recollected, that in September last a treaty was concluded at Washington by Mr. Martinez on the part of Mexico, and Mr. Forsyth on the part of the U. States. That treaty was not ratified by Mexico. But satisfactory explanation why it was not ratified, has been given to the President. Early in April a new treaty was negotiated, at Washington, and signed by Mr. Martinez and Mr. Forsyth.

I am warranted, I believe, in saying that all national difficulties between the two countries are arranged, or in a promising way to be arranged. It only remains, then, to adjust the private claims of our citizens.

The treaty of April last, is carried out by Mr. Ellis, and it is supposed that the influence of Gorisla, who is very hostile to our Government, will not be sufficient to prevent its ratification. It provides, that within three months after the ratification by the contracting parties which cannot take place, until the United States Senate convene in December next) two Commissioners shall be appointed by the Government of Mexico, and two by the American Government, which Commissioners, thus chosen, shall form a board to meet in the City of Washington, and proceed to examine and decide upon all claims presented to them, for aggressions committed previous to the signing of the treaty. It further provides, that their sittings shall close within eighteen months after their first meeting. That upon their award being presented to the government of Mexico, that Government shall, forthwith issue its bonds, payable to the several claimants for the amount of eight per cent. per annum. These bonds are to be receivable, at the Custom Houses in the Republic of Mexico, in payment of duties; but the Mexican Government has the right, in case a large amount is presented, at any one Custom House to decline receiving more than one half such amount.

A German broker, Thomas Schultz, who has been engaged in wild and ruinous speculations, Wall Street, on Saturday, in a fit of desperation took poison, and is since dead. Foreign advices are very unfavorable in relation to cotton. Those from Havre, as late as the 2d of May are gloomy. This market is now inactive, and must remain so, until we receive more encouraging accounts from abroad as there is, at least half a cent fall from present prices.

No change in the Stock market, except that there is less confidence than a few days since, in the continuance of present rates.

THE REPORTER.

From Levi's Price Current.
NEW ORLEANS, June 1.

Business generally speaking, remains in the same inanimate state noticed for some length of time, nor do we see any prospect of improvement before the next crop comes to market, to the relief of all parties. Western produce of every description, has been exceedingly dull, since our last notice. The weather has continued warm. The river is at four feet below high water mark.

COTTON.—An active demand has been experienced this week in our cotton market, and heavy sales at advancing prices have been made. On the day our last report was made up, purchasers evinced some anxiety to operate at the decline which had taken place during the week, to which, however, holders were then unwilling to submit; and the favorable advices received from New York almost immediately afterwards, brought buyers more freely into the market, and caused an advance of fully 1-2 cent on all descriptions; which has since been steadily maintained. The sales of the week are estimated at 12,000 bales.

The exports since our report of the 25th ult. amount to 20,368 bales. The arrivals of same period are 9583 bales. Our stock is, therefore, reduced 10,785 bales, and amounts to 83,113 bales, including all on ship-board not cleared on the 30th ult.

LOWER CANADA.

'On Thursday morning,' says the Montreal Herald of Saturday last, 'several loyal families from La. Tortu and the surrounding town arrived in town, in consequence of the threats to which they have lately been subjected by the rebels, and the fears entertained that their lives were in danger. Among the number is Mr. Vinty, who was so severely wounded when Mr. Walker was killed at the breaking out of the rebellion last year. The third act in the tragedy of Lower Canadian rebellion has now commenced, and we doubt not, it will terminate as the previous ones have, in the discomfiture of the rebels, but at a much greater sacrifice of life and property.'—Nat. REMARKS.

The River ceased to rise on Saturday last, and has since been slowly receding. It continued to fall until yesterday noon, when it commenced rising again, and is now within six inches of its greatest height this season. In the mean while the receipts of up-country produce have been light, and stocks are daily diminishing, whilst prices have a tendency upwards.

BACON, continues in good demand at our quotations; hams will bring 12 to 15 cents.

PORK, in bulk, is still in good demand 7 to 8 1-2 cents.

Flour is becoming scarce and \$8 to 8 50 is asked.

WHISKEY is equally scarce and as readily demanded 55 cents during the last week.

HOLLY SPRINGS University.

THE public generally, are respectfully informed that on account of the embarrassed state of this Institution, since the close of the last session, it has been disposed of, agreeable to the grants of its charter, to the Methodist Episcopal Denomination, and is now placed under their management and control, under the conviction that no literary institution, unconnected, either with the State or some christian body, can possibly succeed as well, when sustained by civil or religious relationship.

In the transfer of the Institution into the hands of another Board of Managers, the general character and object of the Institution has not been altered or violated, since the article of the Constitution, which "permits no efforts to teach the peculiar tenants of any political party or religious denomination" and which proposes, "that it shall be adapted in all its parts to make thorough and accomplished schools; that the course of study be similar to those pursued in all the Colleges and Universities of the highest standing in our country, that it afford facilities for acquiring a scientific and business education, to those who do not wish to study the learned languages; and that it tends to cultivate a taste for literature and useful knowledge, and to cherish the principles of integrity, honor, patriotism and christianity" still remains the same; thus guarding against the improper influence of sectarian dogmas, and carrying forward upon a more permanent plan, the general object contemplated in the organization of the Institution.

The object and intention of the present Board is, to carry out fully, the design contemplated in the original plan, as time and circumstances may demand and means permit. viz. The establishment of a Medical and Law department, in addition to the preparatory department, and the college proper; and to spare no pains in the procuration of highly accomplished and the most approved Professor and Instructors, and all the necessary apparatus required in the progress of a highly finished education.

On account of limited time, the nature of existing circumstances, and the nearness of the approaching session, the Board have not made no material change in the regulations of the Institution, and as permanent arrangements were made by the former Board, for the present year, ending in October next with slight modifications, the general arrangements for the ensuing session, will be as heretofore.

In order to attend to necessary preliminary matters, it has been deemed expedient to protract the present vacation two weeks before the stipulated time, so that the next session will not begin until the THIRD MONDAY OF JUNE, at 10 o'clock, A. M. at which time, the session will open, and the exercises commence with a suitable address by the President of the Faculty.

For the coming session, the Institution will be under the management of the following Faculty, viz:
